No:12815/Regr's office/2020/kuhs

Dated: 30/11/2020

From

The Registrar

To

The Principals of medical colleges

Sub: KUHS - Reopening of colleges - Reg.

All the health professional education institutions are remaining closed from March 2020 onwards in India, and examinations got delayed. Now, the National Medical Commission (NMC) has given an advisory to all state governments/UT/Universities/Medical Colleges from 01/12/2020 onwards in a phased manner and a modified Gantt chart for the conduct of examinations is published incorporating the start of PG courses upto 20204. If we are failing to follow this tentative time table our students are likely to lose their chances to appear for the Medical PG entrance examinations in coming years.

Kerala University of Health Sciences is taking a serious note of this situation and informed all concerned authorities about this. A communication was sent to all medical colleges affiliated to the university requesting for some information by return of mail on 27/11/2020. After receiving replies from 23 institutions (more than 80%) KUHS like to inform all stake holders as follows, as per direction of NMC.

- 1. Final MBBS part II regular examination (2016 admission) is to be conducted by April 2021.**
- 2. First MBBS regular examination (2019 admission) is to be conducted by February 2021.**

3. Supplementary examinations of II MBBS and Final MBBS part I are to be conducted in January 2021.
4. Final MBBS part I regular examination (2017 admission) and II MBBS regular examination (2018 admission) are to be conducted in April 2021.
5. In the above circumstances the Final MBBS part II ( R ) Exam going batch students may be contacted and advised to report to the colleges for clinical training immediately after the elections to the local bodies (15/12/2020 onwards or at the earliest).
6. The first MBBS ( R ) exam going students may be contacted and advised to report for clinical training immediately after Christmas (28/12/2020 onwards or at the earliest) .
7. Other batches of students (2017 & 2018) may be directed to follow this in a phased manner after ensuring accommodation facilities.
8. All safety measures advocated by NMC, Central and State Governments should be strictly adhered to.
9. The colleges whose hostels are taken away for Covid care are requested to take steps for getting the facility back at the earliest.
10. Colleges where non covid patient care is shown as Nil are requested to start admitting such patients.

Copy of NMC advisory and guidelines are enclosed herewith for reference.

Thanking you,

Yours faithfully

Dr. A.K. Manojkumar
